It was quite literally both of your voices that changed the trajectory of my life. I was listening through the Wheel Of Time and realizing that this amazing story was brought further into life by both of your incredible storytelling skills. And it clicked that people did this, people can tell stories for others to hear...I can be one of those people. 3 years ago I was listening my way through an epic fantasy series, 2 years ago I narrated my first audiobook, and now I count myself lucky to be amongst such generous and amazing colleagues like the both of you. Everyday I'm in awe that I get the chance to bring to an author's words to life, lift them off their pages and speak them into the ears of people around the globe. It really is the best!
