

Rebecca

I discovered you both with the first book of the Stormlight Archives. I was at one of the lowest points in my life as I had gotten seriously ill and as the months went on I was too weak to hold up a book, and my eye sight had deteriorated so I couldn't see well. I had tried other audios and just couldn't get into the book due to the voice. You guys not only held me spell bound but were able to take me into Brandon Sanderson world and help me lose track of the hours and weeks. I've listened to books I wouldn't normally read, because you are the ones reading them. I take the long way to and from work when I'm listening to one of your audios just for those extra 15mins. Thank you for the effort and care you put into each reading. I am truly grateful.
