

Tommy

Towards the end of 2018, I was depressed, my OCD had got the better of me, and I felt like there was no way out. Worried about what could be done for me, my brother bought me *The Way of Kings* by Brandon Sanderson. My OCD doesn't really let me 'read' long books so he bought me the Audiobook and left me to my own devices. The story was phenomenal, of course, but the narrators, Michael Kramer and Kate Reading, brought the story to life. I was rapt, and I spent hours and hours listening to my audiobook, buying the sequels, buying more, and choosing books specifically read by Michael and Kate. Audiobooks brought me back from the edge. They were my redemption and my healing. My own *Bridge Four*. Thank you, Michael and Kate. All the love in the world.
